

Dignity Index Webinar: September 23, 2024 with VLA and VAASL

Our disagreements aren't causing the divisions in our country; it's what we do when we disagree. Do we treat the other side with dignity, or do we treat them with contempt? The first brings us together; the second drives us apart.

Please join us for this complimentary webinar brought to you through a partnership between the Virginia Library Association and the Virginia Association of School Librarians.

Tami Pyfer is Co-Creator of the Dignity Index and Chief of Staff for Project UNITE. Before her work with UNITE, Tami served for 7 years as the Education Policy Advisor to former Utah Governor Gary Herbert. She held local and state elected offices for 12 years. She is passionate about the work of UNITE and the Dignity Index and is excited to share this work with the world.

THE DIGNITY INDEX is an initiative of Project UNITE, a 501(c)(3) nonprofit dedicated to promoting national unity and solidarity across differences. UNITE developed the Dignity Index as a means for changing the culture. The Index works by energizing, awakening, and empowering people through transformative experiences of seeing our differences through the lens of dignity, rather than contempt.

This session will be recorded. Join us September 23, 2024 from 4pm-5pm Eastern. Register in advance below:
